
Hot School Meals are back!

From **Wednesday 30th September** hot school meals will make a return. Our catering team have been working hard so that we can provide children with a hot meal option as soon as possible. We are now ready to resume a limited hot menu from Wednesday 30th September. Hot meals will be delivered to classrooms alongside the continuing sandwich offer. The hot meals will be served in a compostable food box within the children's classrooms to maintain the bubble security.

Extra steps have been put in place to ensure hygiene around items such as cutlery.

School Meals on Census day- Thursday 1st October 2020

In January, May and October the Local Authority conduct a Census requesting information from schools, including pupil numbers and school meals. This information determines the levels of school funding for the following year which are desperately needed as school budgets are being stretched even further by additional Covid related costs.

The next Census is **Thursday 1st October 2020**. The school menu will swap to Fish Fingers and chips and beans to the Thursday for the first week only, with the macaroni cheese option served on the Friday. School packed lunches and the cheese Jacket Potato options will still be available.

Please can we ask/beg that as many children as possible take up a school meal on **Thursday 1st October 2020** to maximise the funding for the school.

Thank you for your support

Mr Newman
