Year 2 Topic: Living and Growing

Dear Parents/Carers,

This term our topic is 'Living and Growing.' We have kicked off our topic with some brilliant fruit tasting and discussions on the different seasons that we have. We have also started work on a collaborative art piece that represents the four seasons.

These are the areas that we will be covering this term:

Seasons:

- Using our senses to observe the natural world
- What happens to plants and animals during each season?

Plants:

- Identify and label parts of a plant
- Investigate what plants need to grow
- Understand what 'deciduous' and 'evergreen' mean
- Compare and contrast different plants
- What plants/parts of plants can we eat?
- Recognise and name the following plants:

Human Body

- Identify and label parts of the body
- Identify which part of the body is associated with which sense

We will focus on the impact humans have on the natural world and our role in making the world a better place. We will be learning about animals towards the end of the year.

If the children do anything related to our topic at home, we would love to see it! Please upload photographs to Class Dojo and we can then share them in class.

If you have any questions, please contact us via Class Dojo or give us a call.

Many thanks for your continued support.

Miss Timbrell and Miss Ball
